WRITTEN ANSWERS TO UNSTARRED QUESTIONS

Generation cost of Nuclear Energy

†3355. SHRI RAM JETHMALANI: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that power is being generated in the field of nuclear energy in the country;

(b) if so, the annual average quantum of power generated in this field during the last three years;

(c) the established capacity of power generation in this field;

(d) whether an assessment has also been made regarding the cost of power generation in this field; and

(e) if so, what is the average cost of power generation?

THE MINISTER OF STATE OF THE DEPARTMENT OF ATOMIC ENERGY (SHRIMATI VASUNDHARA RAJE): (a) Yes, Sir.

(b) The electricity produced through nuclear energy in the country for the last 3 years *i.e.*, 1998-99, 1999-2000 and 2000-2001 has been 12001 Million Units (MUs), 13394 MUs and 17213 MUs exceeding the target by 23%, 13% and 32% respectively.

(c) The present nuclear power generation capacity in the country is 2720 MWe.

(d) and (e) The weighted average cost of production for all the units and of the Nuclear Power Corporation of India Ltd. (NPCIL) is 157 paise/KWh. The cost of production does not include the profit element and also the levies of 10 paise/KWh towards decommissioning, renovation, modernisation, and Research and Development.
